STOP SJS

SJS/TEN Ophthalmology Program

RESEARCH STUDY · NOW ENROLLING

Have you had Stevens-Johnson syndrome or TEN?

Help us find the genetic reasons some people develop SJS/TEN — so that one day it can be prevented. You can take part from home.

No visits
Everything happens by mail and online

Saliva only
No needles, no blood draw

Free shipping
Prepaid return label in every kit

Who can take part

- ✓ Diagnosed with SJS or toxic epidermal necrolysis (TEN)
- ✓ Age 2 or older — children with a parent's permission
- ✓ Willing to sign a consent form
- ✓ Willing to give a saliva sample
- ✓ Willing to release medical records about your SJS/TEN

You do not need to live near Chicago. It does not matter how long ago you had SJS/TEN.

How it works

1. **Contact the study team**
   We explain everything and answer your questions.
2. **Sign the consent form**
   Online with Adobe Sign, or on paper in your kit.
3. **Give a saliva sample at home**
   We mail you a simple collection kit.
4. **Mail it back — free**
   A prepaid return label is included.
